2011- 2012 Full CME Calendar click [here](#)

### MAY & JUNE 2012

If you have any questions regarding our courses, please [e-mail us](#).

#### [Friday Afternoon at the Medical School: Practicing Medicine as a Digital Professional- Register Online](#)

**May 25, 2012**

*Health Sciences Centre – Calgary, AB*

*Target Audience: Physicians and Related Healthcare Professionals*

This course is to discuss digital professionalism required by the family physician.

#### [Glen Edwards Day- Register Online](#)

**May 25, 2012**

*Health Sciences Centre – Calgary, AB*

*Target Audience: Family Physicians, Sports Medicine Physicians, Emergency Physicians, Physiotherapists, Nurse Practitioners and Other Health Professionals with interest in MSK Medicine*

This course is to provide a review of common skeletal fractures and management strategies. Some of the course objectives are: to recognize the role of injections in maximizing non-operative strategies for knee and shoulder problems, to become technically proficient at subacromial (shoulder) and intraarticular (knee) injections, and how to describe and when to order advanced imaging of the knee and shoulder.

#### [Practical Pediatrics Course- Register Online](#)

**June 1, 2012**

*Health Sciences Centre - Calgary, AB*

*Target Audience: Family Physicians and Related Healthcare Professionals*

This program will provide participants with practical information and updates on pediatric issues that they may see in their practices. This year's course focuses on two prevalent issues in the pediatric population: childhood obesity issues and ADHD.

#### [CPSA Prescribing Course- Register Online](#)

**June 4, 2012**

*Health Sciences Centre - Calgary, AB*

*Target Audience: Family Physicians*

By the end of this program participants will be provided with the knowledge to identify clinical pitfalls in the prescribing of drugs of potential abuse to patients. To develop strategies to detect and manage misuse and abuse of drugs and potential abuse in the office practice and, how to identify clinical interviewing strategies that assist in managing the difficult problems in the office amongst other strategies.
